

DELTA PLASTICS

Cladding Profiles

Produced from high quality medium to high impact PVCu, these products are used in all areas of the cladding industry to suit 2, 3 and 10mm boards, with the majority of our clients supplying the hygienic cladding sector, i.e. Clean Rooms, Supermarket Kitchens, School Canteens, Changing Rooms etc.

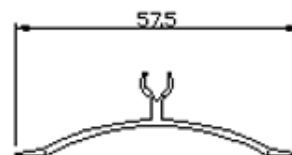

Hygienic cladding profiles supplied in standard white PVCu or can be colour matched to any sample or RAL required.
